WHAT IS DUTICOIN?

Duticoin Rewards Labour...

Duticoin is a peer-to-peer digital currency that enables fast, close to no transaction cost to anyone/anywhere in the world.

Duticoin is an open source, worldwide payment network that is fully decentralized without any central control. Blockchain is the most sophisticated secured network and empowers individuals to control their own finances. Duticoin provides the fastest transaction confirmations and improved storage efficiency than the leading digital currency. Accompanied by fundamental diligence aid, trade volume and liquidity.

Duticoin is an open source currency, it has no team, no government, no control and no special technology behind it, only pure belief in labour settlement and the power of people. Duticoin is the people's coin!

Our Main Feature

Real world employers accept Duticoi currency. Duticoi is accepted globally by businesses of all shapes and sizes. Our low fees and instant transaction time make Duticoi the preferred method of payment around the world.

Instant settlement

Flexibility

Blockchain technology

Fast Confirmation

Instant Connection

AI matching

Low cost

Digital processing

Community

Instant transactions and micro-fees. Any amount, anytime, anywhere.]

Open Source Software

Dutecoin is an open source software project released under the MIT/X11 license which gives you the power to run, modify, and copy the software and to distribute, at your option, modified copies of the software. The software is released in a transparent process that allows for independent verification of binaries and their corresponding source code.

Blockchain

The Dutecoin blockchain is capable of handling higher transaction volume than its counterpart. Due to more frequent block generation, the network supports more transactions without a need to modify the software in the future. Due to this, merchants get faster confirmation times, while still having ability to wait for more confirmations when selling bigger items.

Mining Reward

Miners are currently awarded with 50 new dutecoins per block, an amount which gets halved roughly every 4 years (every 380,000 blocks). The Dutecoin network is therefore scheduled to produce 38 million dutecoins.

Resources

General information as well as a list of services and exchanges that support Dutecoin and the source code.

Wallet Encryption

Wallet encryption allows you to secure your wallet, so that you can view transactions and your account balance, but are required to enter your password before spending dutecoin. This provides protection from wallet-stealing viruses and trojans as well as a sanity check before sending payments.

Tokenomics

Token Name	duticoin
Token Symbol	DTC
Network	0000
Total Supply	8,046,008 DTC

Charity wallet	00%
Development and marketing	00%
Pancakeswap	00%

4. Roadmap

2017

- X11
- Masternodes
- Sporks
- PrivateSend

2019

- Code rebase
- Wallet systems
- Instant send
- Governance system

2020(i)

- 2MB block vote
- Miners
- Insight API
- X11 libraries

2020(ii)

- Branding

2021(i)

- EVONET
- Protocol versioning
- Platform test suite
- Binary document fields
- Document timestamps
- Improved distribution package
- Default identity name
- DPNS & identity DIPS

2021(ii)

- Small screen improvements
- Home screen improvements
- Recovery phrase improvements
- Chain sync improvements
- Secured ChainLock

2021(iii)

- Duti Core version
- BLS implementation
- Asset lock special transaction
- RPC PoSe for platform
- DML extension for platform
